

Installation Option 1

1 Remove and separate the transparent plastic tabs.

2 Peel off the protective film from each piece.

3 Place the adhesive side of the plastic tabs on the frame edges of the monitor.

4 Insert privacy filter between the plastic tabs and the monitor.

Installation Option 2

1 Separate four cells of double-sided adhesive paper.

2 Stick the adhesive cells near the corners of the privacy filter.

NOTE: The filter sides have different finishes. Either can face outward.

3 Gently peel off the protective paper.

4 Carefully place the privacy filter onto the screen.
